Dr. Robert Bodor,
The President
Europolice Federation
Slovakia

Dear Sir,

LETTER OF COLLABORATION

The Ghana United Nations Association (GUNA) is a United Nations based civil society growing organization and works for human development, promotion of peace and security, and good governance. GUNA is registered with the Government of Ghana and has individual members across Ghana and other parts of the world. We also network with public and private sector organizations at the national and international levels.

We, the national executive at Ghana United Nations Association, believe in building synergies and developing mutually beneficial relationships to address some of the world's pressing issues including security matters. We, therefore, seek collaboration with your highly esteemed institution, the Europolice Federation to improve the lives of people through joint efforts in the following areas:

1. Capacity building training for GUNA members on security matters
2. Organizational strengthening via human resource development
3. Providing educational exchange programs for members
4. Awarding of scholarships and any other assistance that may arise.

Benefits of Collaboration:

1. The collaboration will also bring free branding opportunities for your institution.
2. The name of Europolice Federation will be mentioned with acknowledgment of all correspondence material including Training Brochure, Certificates, souvenirs, professional LISTSERVS, banners, and emails.
3. We put your link and logo on our dynamic website as well.

GHANA UNITED NATIONS ASSOCIATION (G.U.N.A)

4. Provide courtesies for any staff from your outfit and any other assistance that may arise.

We believe that together we can bring changes in the lives of many through capacity building and training.

Kind regards

Bishop Nathaniel Rudolph
(Director of Administration)
